

YASKAWA

ATTENTION GEARHEADS

Are you into the nuts and bolts of automation power and precision?

Here's something new to get enthused about: every Yaskawa servo motor is now available with a perfectly matched gearhead. Enjoy Yaskawa servo speed and precision at torque ratios never seen before. Better still, each gearhead is precisely attached to its specific servo motor at our Illinois factory to assure decades of trouble free operation.

Contact a Yaskawa representative about our new gear motor options, and shift your machine's performance into high gear.
