When our engineers work on a motion project with you, they share everything that’s in their heads. Sometimes that means turning over 100 pages of notes, formulas and drawings. Other times, it’s simply having straight forward conversations.

At the same time, Yaskawa customers share their proprietary knowledge because they can trust us. Because we give their challenges a lot of thought. Because when they talk to us, they know we are on their side.

Trusting the guys across the table from you with your most important product secrets. That’s noteworthy.
