

# Rock Solid Performance

The U1000 Industrial Matrix Drive

The rugged Yaskawa U1000 Industrial Matrix drives deliver solid performance in extreme mining conditions. The U1000 specializes in low harmonic performance with 100% continuous regeneration.

Make the complex simple. Our U1000 Industrial Matrix Drives are the smallest, fastest to commission, low harmonic, regenerative drives on the market.

**Want rock solid performance from a rugged drive?
