

YASKAWA

## Case Study

### Lake Tahoe Casino - A Sure Bet

#### Highlights:

- Qty 6 Drives
- 25hp & 40hp 460v, NEMA 1
- Condenser Water & Secondary Chilled Water Pump
- Communication via Honeywell

#### Site Brief:

When the decision was made at Caesar's Palace, Lake Tahoe to expand the existing central plant, reliable and quiet operation was the primary concern.

Caesar's previous experience with Yaskawa drives was "Put them in and forget them", making this an easy decision. Cal Air, the mechanical contractor turned to Norman Wright and Yaskawa to provide variable frequency drives with a proven track record.
