JOHB-SMP3

ALL-IN-ONE MULTI-PROTOCOL ETHERNET (MPE) COMMUNICATION OPTION CARD

Be Part of the Industrial Internet of Things (IIoT)

Global competition continues to push the requirements for machine efficiency, predictability, and preventive maintenance, all of which depend on timely and accurate information delivered through connections via industrial Ethernet communication protocols.

With Yaskawa drives, those connections are made with the easy-to install, multi-protocal, dual port Ethernet plug-in option card to enable easy and quick integration into your network.

AVAILABLE NETWORKS

JOHB-SMP3: MPE COMMUNICATIONS OPTION CARD

The JOHB-SMP3 Multi-Protocol Ethernet (MPE) option card is a single circuit board option card for Yaskawa AC drives that contains multiple industrial Ethernet protocols. You can use a series of configuration switches on the circuit board to select the correct protocol for your application.

SUPPORTED DRIVE COMMUNICATIONS WITH MPE OPTION CARD

BENEFITS

Quality

Our commitment to and obsession with quality has gained Yaskawa high marks in not only today's North American industrial markets, but in all industries throughout the world.

Reliability

Yaskawa's OEMs know our products and support are quietly working behind the scenes to keep their systems running efficiently.

Support

Yaskawa support is global, 24/7/365. As an integral part of an OEM's equipment, we understand the critical roles drives play in the OEM's ultimate business success. Our highly experienced sales force, backed by our application and design engineers, ensure best solutions and support for years of carefree operation with the lowest cost of product ownership.

Delivery

Our centrally-located USA manufacturing and distribution facilities are committed to meeting your total drive and delivery requirements, which are critical to your production schedules and revenue.

IT'S PERSONAL
