

Title: What web browser technology is supported by the MPiec Series Controllers?

Product(s): MP23x0iec, MP2600iec, MP3200iec, MP3300iec, Sigma-7Siec

Doc. No. MTN-8XZQ5D

The MPiec controllers have evolved over their lifespan. The first versions only supported Internet Explorer with the classic interface. A modern interface was added and fully supported in firmware release 3.2.0 to conform to more modern browsers. The classic interface is the only interface supported by Internet Explorer and is available in all firmware versions. The attached chart shows the supported interface - firmware version combinations.

Mpxxxxiec FW ↓	Classic Interface				Modern Interface			
	IE Ver 6 to 9	IE Ver10 and higher	Edge	Chrome, Firefox, and Safari	IE Ver 6 to 9	IE Ver10 and higher	Edge	Chrome, Firefox, and Safari
Ver 1.x to 3.1.0.x	Supported	Supported with special IE settings	Not Supported		Not Available			
Ver 3.2.0.x to 3.3.0.x					Not Supported		Not Supported	Supported
Ver 3.4.0.x							Supported	

See document MTN-97XRJ3 “Using Web Server Classic on the MPiec Controllers” for more information on using the classic interface.
