HV600 VARIABLE FREQUENCY DRIVE
FOR HVAC FAN AND PUMP APPLICATIONS

Capable. Reliable. Sustainable.
The HV600 was specifically designed as a variable frequency drive for HVAC fan and pump applications. Its high-contrast display and LED Status Ring give clear indication of drive parameters and operation status. These features and mobile device programming combine to make the complicated simple.

HF600 VARIABLE FREQUENCY DRIVE FOR HVAC FAN AND PUMP APPLICATIONS

QUICK AND EASY SETUP
Connect your mobile device with the DriveWizard Mobile app by using the built-in USB port. Using the built-in USB port, HF600 support tools can be used to program the drive without connecting three-phase power.

Power Range
- 208 VAC: 3 to 100 HP
- 480 VAC: 3 to 250 HP

Advanced Keypad Navigation
Shortcuts, scrolling and function keys offer faster navigation.

Parameter Backup / Copy
Removable keypad allows you to back up and copy parameters to other drives.

24 VDC Power Input for Controller
Simplify your wiring and keep your control system operating even during standby or power outage.

High-Contrast Display
Contrast control offers clear and readable full-text descriptions.

LED Status Ring
You can determine the drive status with a quick glance at the LED status ring and know the HF600 is ready and operating.

Finger Safe Terminals
Easily access terminals to make the wiring process faster and easier. No need to remove the cover.

USB Port (behind keypad)
Easily connect your PC or mobile device to program the drive with or without power.

Real-Time Clock
Real-time clock for time and date stamp of fault information.

MicroSD Slot
MicroSD storage for data logging.

MicroSD Slot
MicroSD storage for data logging.
