

Installing the JVOP-181 USB Copy Unit (Y-Stick) Driver

To install the driver, please follow the steps below;

- 1. Copy the driver to a folder located on the PC such as "My Documents".
- 2. Insert the USB connector from the JVOP-181 Copy Unit into an available USB port on the PC.
- 3. The PC will recognize the new hardware and will display the Hardware Wizard shown below.

Found New Hardware Wizard	
	Welcome to the Found New Hardware Wizard
	This wizard helps you install software for:
	USB Device
	If your hardware came with an installation CD or floppy disk, insert it now.
	What do you want the wizard to do?
	 Install the software automatically (Recommended) Install from a list or specific location (Advanced)
	Click Next to continue.
	< <u>₿</u> ack. <u>N</u> ext > Cancel

4. Follow the Hardware Wizard and select "Install from a list or specific location (Advanced) then select "Next".

- 5. Select "Search for the best driver in these locations".
- 6. Select "Include this location in the search".
- 7. Select "Browse" and choose the location where the file was saved.
- 8. Select "Next".

Found New Hardware Wizard	
Please choose your search and installation options.	
⊙ Search for the best driver in these locations.	
Use the check boxes below to limit or expand the default search, which includes local paths and removable media. The best driver found will be installed.	
Search removable media (floppy, CD-ROM)	
Include this location in the search:	
C:\Documents and Settings\My Documents Settings\My Documents	
Don't search. I will choose the driver to install.	
Choose this option to select the device driver from a list. Windows does not guarantee that the driver you choose will be the best match for your hardware.	
< <u>B</u> ack <u>N</u> ext > Cancel	

9. The installation is now complete. Select "Finish" to begin using the USB Copy Unit.
