Doc. No. PN.MWIEC.06

YASKAWA

When an end user wishes to transfer a license from one computer to another, they must have the license number that was received in an email when MotionWorks IEC v3 was originally purchased.

If the end user does not have the license number, it can be obtained by collecting the container number and then contacting Motion Support at 1-800-YASKAWA or <u>motion support@yaskawa.com</u>. The container number can be found two ways.

The following steps will go over how to collect the container number. If the license number is already available, please skip to step 3.

1. Collect container number from MotionWorks IEC Hardware Configuration.
